

Reis Fishing Industrial Co. Ltd. is a fishing tackles and implements company with its qualified products under reliable trade marks, well focused on the demands of its customers.

Since 1997, Reis Fishing is running in fishing tackles market in Turkey, with a successful story. With the support of well educated employers and power of young entrepreneur structure, Reis Fishing became one of the leading fishing tackle companies in Turkey. Fishing Line winded on spools and in hanks in various packing is the main working area of our company.

Reis Fishing started exporting its products to Balkan countries and Middle-Eastern countries at the end of 2002, which resulted great reputations from its happy customers.

Reis Fishing has built a new factory, with a capacity of 100.000 units of fishing line winded on 100m spools, monthly, mainly working on clear, blue, green and mixed color choices in various packing ways.
